

# UNDERREPRESENTED GROUPS & ACCESSIBILITY

## GREATER VANCOUVER UNITED SPORTS CLUB

Greater Vancouver United Sports Club believes everyone should be able to play soccer which includes underrepresented groups. We believe that everyone has a right to participate and enjoy playing soccer in a safe environment. Our club has a lot of Indian players, and they are already a smaller percentage of Canada's population, so we understand how important it is for underrepresented groups to play.

We have coaches from different communities which attract players from other communities as well. We believe if the community sees underrepresented coaches, more underrepresented players will be intrigued to join.

Our coaches have been taught to not discriminate and to include everyone. Many of our coaches being from underrepresented groups, helps them understand how important it is for everyone to play.

Our online pages say anyone can join, and we truly mean that. Our club has always wished and pushed for more diversity in our club. We always ask our underrepresented groups to ask others if they would wish to join our club as well.

We see having a diverse club full of underrepresented groups as a positive, because it shows the community, we are open to all.
